

Nevada (702 area code) Telephone Voicemail Service

- \$17.00 a month, (payable annually).
- Callers will think it's an answering machine in your Nevada office.
- Your own private phone number—not an extension or box number.
- Use it for business or personal use.
- Have your phone in service within 2-3 days!
- Callers hear your own personalized message.
- Is listed in business white pages & with operator (Company name only—no address).
- Messages can be saved or discarded.
- Retrieve messages 24 hours a day—accessible only with your secret code.
- Set up or change your message or code anytime by touch tone phone.

This professional voice mailbox service is pre-programmed with easy to follow instructions for setting up an outgoing message and establishing your personal access code. When you begin your service we provide you with an initial code allowing you to access your new phone service. You then record your greeting message up to 1 minute in length and review it, or change it as many times as you like. (You would also establish your own [new] personal access code at the same time.)

Published listing is with the information operator and in the Las Vegas' business white pages reflecting your company name and phone number—but no address. Please allow several weeks for published listing to take full effect.

Phone service is normally established within 48 hours after we place your order. (Annually, you will be billed several weeks prior to expiration of your service period.) If your payment is not received by the last day of your service period, service will terminate automatically—the same phone number cannot be reinstated—you will lose it.
